

Town of Tiburon
 1505 Tiburon Blvd.
 Tiburon, California 94920

Business License Application

Application Guidelines

1. The Town of Tiburon requires a business license for any business activity within the city limits. Applications must be made and approved before operations begin.
2. To apply for a license please return the fully completed and signed business license application (an original signed copy is required – no email applications will be accepted). This may be done at the Town Hall or mailed to the address shown above.
3. If you have a commercial business the Planning Department will review the “type of business” to comply with zoning and usage requirements of the Town of Tiburon.
4. If you are conducting the business in a residential location you will also be required to fill out a Home Occupation Permit Application (See Home Occupation Permit Application).
5. General contractors will be charged by the Tiburon Building Division at the time your building permit is pulled. Sub-contractors are covered under the general building permit in place for the contractor.
