

TOWN OF TIBURON
Tiburon Town Hall
1505 Tiburon Boulevard
Tiburon, CA 94920

Regular Meeting
Design Review Board
December 1, 2016
7:00 p.m.

AGENDA
TIBURON DESIGN REVIEW BOARD

CALL TO ORDER AND ROLL CALL

**Chair Kricensky, Vice Chair Emberson, Boardmembers Chong,
Cousins And Tollini**

ORAL COMMUNICATIONS

Persons wishing to address the Design Review Board on any subject not on the agenda may do so under this portion of the agenda. Please note that the Design Review Board is not able to undertake extended discussion, or take action on, items that do not appear on this agenda. Matters requiring action will be referred to Town Staff for consideration and/or placed on a future Design Review Board agenda. Please limit your comments to no more than three (3) minutes. Any communications regarding an item not on the agenda will not be considered part of the administrative record for that item.

STAFF BRIEFING (If Any)

PUBLIC HEARINGS & NEW BUSINESS

1. 77 EAST VIEW AVENUE

File Nos. DR2016104, VAR2016033, VAR2016034, VAR2016035 & FAE2016011; Clinton Yee, Owner; Site Plan and Architectural Review for construction of additions to an existing single-family dwelling, with Variances for reduced front setback and excess building height, and a Floor Area Exception. The applicant proposes to construct 1,361 square feet of additions to an existing three-story house, which would result in a floor area ratio of 55.8%, which is greater than the 35.0% maximum for a lot of this size. The front setback would be 2 feet, 6 inches in lieu of the minimum 15 feet. The house would be 37 feet tall, in lieu of the maximum building height of 30 feet. Assessor's Parcel No. 060-105-92. [DW]

Documents:

[77 EAST VIEW.PDF](#)

2. 484 WASHINGTON COURT

File Nos. DR2016128/VAR2016041; Karla Rivera and Ernie Cervantes, Owners; Site Plan and Architectural Review for construction of a new single-family dwelling, with a Variance for excess fence height. The floor area of the proposed house would be 2,269 square feet, and its lot coverage would be 2,480 square feet (28.3%). A portion of a new fence would be 8 feet tall, which is greater than the maximum fence height of 6 feet. Assessor's Parcel No. 034-251-28. [DW]

CONTINUED TO DECEMBER 15, 2016

Documents:

[484 WASHINGTON COURT.PDF](#)

ACTION ITEMS

3. 150 AVENIDA MIRAFLORES

File Nos. TREE2016001/TREE2016017; Edwin and Nancy Clock, Owners/Applicants/Appellants; Firuze Hariri, Applicant; Consider Adoption of Resolutions Denying Appeal of Planning staff approval of Tree Permit to permit the removal of one (1) Italian Stone Pine Tree and one (1) Cajeput tree, and appeal of Planning staff denial of Tree Permit to permit the after-the-fact planting of one (1) Italian Stone Pine Tree, one (1) Cajeput Tree, one (1) Cotoneaster Tree and one (1) Privet Tree; Assessor's Parcel No. 039-111-09. [DW]

Documents:

[150 AVENIDA MIRAFLORES.PDF](#)

4. 23 MERCURY AVENUE

File No. DR2016075; Jeff Greenberg, Owner; Site Plan and Architectural Review for construction of a new single-family dwelling. The floor area of the proposed house would be 3,110 square feet, and its lot coverage would be 2,716 square feet (18.2%). Assessor's Parcel No. 034-252-03. [DW] **CONTINUED TO JANUARY 19, 2017**

Documents:

[23 MERCURY AVENUE.PDF](#)

5. 200 ROUND HILL ROAD

File No. DR2016129; Phil and Jen Bennett, Owners; Site Plan and Architecture Review for construction of additions to an existing single-family dwelling. The project would add 723 square feet to the existing house, resulting in a total floor area of 3,504 square feet and lot coverage of 2,954 square feet (14.9%). Assessor's Parcel No. 058-252-01. [KO]

Documents:

[200 ROUND HILL ROAD.PDF](#)

6. 9 MERCURY AVENUE

File No. DR2016132; Todd and Gena Davis, Owners; Site Plan and Architecture Review for construction of additions to an existing single-family dwelling. The project would add 1,043 square feet to the existing house, resulting in a total floor area of 2,804 square feet and lot coverage of 2,479 square feet (29.9%). Assessor's Parcel No. 034-252-10. [DW]

Documents:

7. MINUTES

Consider adoption of minutes of meeting of November 3, 2016

ADJOURNMENT

GENERAL PUBLIC INFORMATION

ASSISTANCE FOR PEOPLE WITH DISABILITIES

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact the Planning Division Secretary at (415) 435-7390. Notification 48 hours prior to the meeting will enable the Town to make reasonable arrangements to ensure accessibility to this meeting.

AVAILABILITY OF INFORMATION

Copies of Design Review Board Agendas, Staff Reports, project files and other supporting data are available for viewing and inspection at Town Hall during business hours. Agendas and Staff Reports are also available at the Belvedere-Tiburon Public Library and on the Town of Tiburon website (www.ci.tiburon.ca.us) after 5:00 PM on the Friday prior to the regularly scheduled meeting.

Any documents produced by the Town and distributed to a majority of the Design Review Board regarding any item on this agenda, including agenda-related documents produced by the Town after distribution of the agenda packet at least 72 hours in advance of the Board meeting, will be available for public inspection at Town Hall, 1505 Tiburon Boulevard, Tiburon, CA 94920.

Upon request, the Town will provide written agenda materials in appropriate alternative formats, or disability-related modification or accommodation, including auxiliary aids or services, to enable individuals with disabilities to participate in public meetings. Please deliver or cause to be delivered a written request (including your name, mailing address, phone number and brief description of the requested materials and preferred alternative format or auxiliary aid or service) at least five (5) days before the meeting to the Planning Division Secretary at the above address.

PUBLIC HEARING ITEMS AND BUSINESS ITEMS

Public Hearing items and Business items provide the general public and interested parties an opportunity to speak regarding items that typically involve an action or decision made by the Board. If you challenge any decision in court, you may be limited to raising only those issues you or someone else raised at the meeting, or in written correspondence delivered to the Board at, or prior to, the meeting.

GENERAL PROCEDURE ON ITEMS AND TIME LIMIT GUIDELINES FOR SPEAKERS

The Design Review Board's general procedure on items and time limit guidelines for speakers are:

- ❖ Staff Update on Item (if any)
- ❖ Applicant Presentation – 5 to 20 minutes
- ❖ Design Review Board questions of staff and/or applicant
- ❖ Public Testimony (depending on the number of speakers) – 3 to 5 minutes for each speaker; members of the audience may not allocate their testimony time to other speakers
- ❖ Applicant may respond to public comments – 3 minutes

- ❖ Design Review Board closes the public testimony period, deliberates and votes (as warranted)
- ❖ Time limits and procedures may be modified in the reasonable discretion of the Chairman

Interested members of the public may address the Design Review Board on any item on the agenda.

ORDER AND TIMING OF ITEMS

No set times are assigned to items appearing on the Design Review Board agenda. While the Design Review Board attempts to hear all items in order as stated on the agenda, it reserves the right to take items out of order without notice.

NOTE: ALL DESIGN REVIEW BOARD MEETINGS ARE AUDIO RECORDED

TOWN OF TIBURON LATE MAIL POLICY (Adopted and Effective 11/7/2007)

The following policy shall be used by the Town Council and its standing boards and commissions, and by staff of the Town of Tiburon, in the identification, distribution and consideration of late mail.

DEFINITION

“Late Mail” is defined as correspondence or other materials that are received by the Town after completion of the written staff report on an agenda item, in such a manner as to preclude such correspondence or other materials from being addressed in or attached to the staff report as an exhibit.

IDENTIFICATION OF LATE MAIL

All late mail received by Town Staff in advance of a meeting shall be marked “Late Mail” and shall be date-stamped or marked with the date of receipt by the Town. Late mail received at a meeting shall be marked as “Received at Meeting” with a date-stamp or handwritten note.

POLICY

For regular meetings of the Town Council and its standing boards and commissions:

- (1) All late mail that is received on an agenda item prior to distribution of the agenda packet to the reviewing authority shall be stamped or marked as “Late Mail” and shall be distributed to the reviewing authority with the agenda packet.
- (2) All late mail received on an agenda item before 5:00 PM on the Monday prior to the meeting shall be date-stamped and marked as “Late Mail” and distributed to the reviewing authority as soon as practicable. Such mail shall be read and considered by the reviewing authority whenever possible. If the Monday, or Monday and Tuesday, prior to the meeting are a Town-recognized holiday, the deadline shall be extended to the following day at Noon.
- (3) Any late mail received on an agenda item after the deadline established in paragraph (2) above shall be date-stamped, marked as “Late Mail” and distributed to the reviewing authority as soon as reasonably possible, but may not be read or considered by the reviewing authority. There should be no expectation of, nor shall

the reviewing authority have any obligation to, read or consider any such late mail, and therefore such late mail may not become part of the administrative record for the item before the reviewing authority.

These provisions shall also apply to special and adjourned meetings when sufficient lead time exists to implement these provisions. If sufficient lead time does not exist, the Town Manager shall exercise discretion in establishing a reasonable cut-off time for late mail. For controversial items or at any meeting where a high volume of correspondence is anticipated, Town staff shall have the option to require an earlier late mail deadline, provided that the written public notice for any such item clearly communicates the specifics of the early late mail deadline, and the deadline corresponds appropriately to any earlier availability of the agenda packet.

STAFF REPORT

To: Members of the Design Review Board

From: Community Development Department

Subject: 77 East View Avenue; File Nos. DR2016104, VAR2016033, VAR2016034, VAR2016035 & FAE2016011 ; Site Plan and Architecture Review for Construction of Additions to an Existing Single-Family Dwelling, with Variances for Reduced Front Setback and Excess Building Height, and a Floor Area Exception (*Continued from October 20, 2016*)

BACKGROUND

The applicant is requesting Design Review approval for the construction of additions to an existing three-story single-family dwelling on property located at 77 East View Avenue. The application was first reviewed at the October 20, 2016 Design Review Board meeting. At that meeting, neighboring residents at 75 & 81 East View Avenue raised concerns about view and privacy impacts from the proposed additions and the overall mass of the project. The Design Review Board shared these concerns, stating that the house was too large and too wide, and would have privacy impacts on the home at 81 East View Avenue. The Board continued the application to the December 1, 2016 meeting.

The applicant has submitted revised plans for the project. The width of the house would be narrowed by 1 foot, 10 inches and would now comply with both side setbacks. The roof over the proposed garage has been changed to a flat design. The upper level deck off the living room has been shortened by 2 feet, 6 inches, and the railing has been changed from a solid wood design to a glass railing. Additional screening landscaping has been proposed around the house, although this vegetation has not been reviewed by the Tiburon Fire Protection District for compliance with their vegetation management standards.

Minor changes have been made to all three floors of the house. A total of 95 square feet has been removed from the upper level, 77 square feet from the middle level and 35 square feet from the lower level. The total floor area of the house has been reduced 242 square feet to a new proposed total of 2,942 square feet (55.8%), which is greater than the 35.0% maximum floor area permitted for a lot of this size. A floor area exception is therefore still requested. The lot coverage of the site would increase by 804 square feet to 1,536 square feet (29.1%), which is less than the 30.0% maximum lot coverage permitted in the R-1 zone.

Variances would still be required for reduced front setback and excess building height, as the proposed front setback and building height have not changed. The additions would now comply with the side setbacks and a variance is no longer required for reduced side setback.

ANALYSIS

Design Issues

The proposed changes to the project design appear to generally respond to the direction given by the Design Review Board at the October 20, 2016 meeting. The width of the house has been reduced, with the additions pulled out of both side setbacks and slightly further from both nearby homes, although the 1 foot, 10 inch reduction would be relatively modest. The smaller upper deck would somewhat lessen, but not eliminate, the potential privacy impacts for the adjacent home, but the substitution of a glass guardrail would somewhat offset this effect. The flat roof over the garage would reduce the visual mass of the building when viewed from the street.

The Design Review Board should view the revised story poles from the homes at 75 & 81 East View Avenue. The Board should then review the revised project design to determine if the changes made are sufficient to address the concerns raised at the previous meeting.

Zoning

Staff has reviewed the proposal and finds that it is generally not in conformance with the development standards for the R-1 zone, as variances are requested for reduced front setback and excess building height, along with a floor area exception.

In the October 20, 2016 staff report, staff determined that there was sufficient evidence to support the findings for the requested variances for reduced front setback and excess building height and floor area exception, but not for the side setback variance. The side setback variance is no longer required.

Public Comment

As of the date of this report, no letters have been received regarding the subject application since the October 26, 2016 Design Review Board meeting.

RECOMMENDATION

The Design Review Board should review this project with respect to Zoning Ordinance Sections 16-52.020 (H) (Guiding Principles) and determine that the project is exempt from the provisions of the California Environmental Quality Act (CEQA) as specified in Section 15303. If the Board wishes to approve the application, it is recommended that the attached conditions of approval be applied.

CONDITIONS OF APPROVAL

77 EAST VIEW AVENUE

FILE # DR2016104, VAR2016033, VAR2016034, VAR2016035 & FAE2016011

1. This approval shall be used within three (3) years of the approval date, and shall become null and void unless a building permit has been issued.
2. Construction shall conform with the application dated by the Town of Tiburon on August 4, 2016, or as amended by these conditions of approval. Any modifications to the plans of November 17, 2016 must be reviewed and approved by the Design Review Board.
3. Project elements shown on construction drawings submitted to the Building Division for plan check shall be essentially identical to those project elements shown on drawings approved by the Design Review Board. The permit holder is responsible for clearly identifying on construction drawings any and all changes to project elements. Such changes must be clearly highlighted (with a "bubble" or "cloud") on the construction drawings. A list describing in detail all such changes shall be submitted and attached to the construction drawings, with a signature block to be signed by the Planning Division Staff member indicating whether these changes have been reviewed and are approved, or will require additional Design Review approval. All such changes that have not been explicitly approved by the Town are not "deemed approved" if not highlighted and listed on construction drawings. Construction of any such unapproved project elements is in violation of permit approvals and shall be subject to Stop Work Orders and removal.
4. The applicant must meet all requirements of other agencies prior to the issuance of a building permit for this project.
5. All exterior lighting fixtures other than those approved by the Design Review Board must be down-light-type fixtures.
6. All skylights shall be bronzed or tinted in a non-reflective manner (minimum 25%) and no lights shall be placed in the wells.
7. If this approval is challenged by a third party, the property owner/applicant will be responsible for defending against this challenge. The property owner/applicant agrees to defend, indemnify and hold the Town of Tiburon harmless from any costs, claims or liabilities arising from the approval, including, without limitations, any award of attorney's fees that might result from the third party challenge.
8. A construction sign shall be posted on the site during construction of the project, in a location plainly visible to the public. The sign shall be 24" x 24" in size and shall be made of durable, weather-resistant materials intended to survive the life of the construction period. The sign shall contain the following information: job street address; work hours allowed per Chapter 13 of the Tiburon Municipal Code; builder (company name, city,

state, ZIP code); project manager (name and phone number); and emergency contact (name and phone number reachable at all times). The sign shall be posted at the commencement of work and shall remain posted until the contractor has vacated the site

9. A copy of the Planning Division's "Notice of Action" including the attached "Conditions of Approval" for this project shall be copied onto a plan sheet at the beginning of the plan set(s) submitted for building permits.
10. Prior to issuing a grading or building permit the applicant shall implement measures for site design, source control, run-off reduction and stormwater treatment as found in the Bay Area Stormwater Management Agency Association (BASMAA) Post-Construction Manual available at the Planning Division or online at the Marin County Stormwater Pollution Prevention Program (MCSTOPPP) website at www.mcstoppp.org.
11. All requirements of the Town Engineer shall be met, including, but not limited to, the following, which shall be noted on building plan check plans:
 - a. The site must provide at least one Post Construction mitigation in accordance with E.12 of the Town's Municipal Stormwater Permit and the BASMAA Post-Construction Manual Design Guidance for Stormwater Treatment and Control for Projects in Marin, Sonoma, Napa, and Solano Counties. Prior to building permit issuance complete the Project Data Form indicating which runoff reduction measure will be used and delineate the areas and locations of runoff reduction measures on a site plan.
 - b. A detailed construction management plan shall be submitted prior to building permit issuance and shall be subject to review and approval by the Public Works Department. The maximum limit of road closures during construction shall be 18 days for the duration of the project in accordance with the amount specified in the preliminary construction management plan.
 - c. An Encroachment Permit from DPW is required for any work within the Town's road right-of-way, including, but not limited to, utility trenching, installation of new utility connections, and modifications to the driveway apron. The plans shall clearly identify all proposed work in the right of way and an Encroachment Permit shall be obtained prior to conducting such work. If no work is proposed within the public right-of-way this comment may be disregarded.
 - d. Prior to building permit issuance specify on the building permit plan set the total volume of displaced earth (cut and fill).
 - e. Prior to building permit issuance an erosion and sediment control plan shall be submitted as part of the plan set.

- f. Prior to building permit issuance the applicant shall complete the Construction Erosion and Sediment Control Applicant Package that can be found on the Town's website.
 - g. Prior to building permit issuance provide a geotechnical report prepared by a licensed soils engineer.
 - h. Plans, reports, calculations and other relevant project files shall be reviewed and approved by the Public Works Department for impacts to the public right-of-way prior to building permit issuance.
 - i. Prior to building permit final all damage to the streets that result from the subject construction activities shall be restored by applicant/developer. Inspections by the Public Works Department shall take place prior construction, during construction and prior to final to identify extent of restoration and to ensure its adequacy.
12. The final landscape and irrigation plans must comply with the current water efficient landscape requirements of MMWD.
13. The project shall comply with the requirements of the California Fire Code and the Tiburon Fire Protection District, including, but not limited to, the following:
- a. The structure shall have installed throughout an automatic fire sprinkler system. The system design, installation and final testing shall be approved by the District Fire Prevention Officer. CFC 903.2
 - b. Access shall extend to within 150 feet of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility. CFC 503.1.1
 - c. Approved smoke alarms shall be installed to provide protection to all sleeping areas. CFC 907.2.10
 - d. The vegetation on this parcel shall comply with the requirements of TFPD and the recommendations of Fire Safe Marin. This may require landscape stairs around the exterior of the structure. CFC 304.1.2
 - e. East View Avenue is an existing nonconforming street that is not wide enough to meet current Fire District standards. As the street is unlikely to be widened, an alternate means of protection shall be provided, subject to the review and approval of the Fire Marshal.
14. The project shall comply with all requirements of Sanitary District No. 5.
15. A construction staging plan shall be approved by the Building Official and Public Works Department prior to issuance of a building permit for this project. The staging plan shall include the following information:

- a. Staging areas and means of construction during the various stages of the projects.
- b. Indicate the impacts to the roadway.
- c. Specify which street frontages will be affected, if any, and whether traffic in Belvedere will be affected. If street frontages will be affected by construction activities, staging or parking, provide traffic control plans and the expected frequency of road closures.
- d. Expected project duration and preliminary construction schedule.
- e. Specify whether East View Avenue will be closed during the demolition and re-construction of the retaining wall and means of retaining the soil and street during construction. The maximum limit of road closures is 5 days for the duration of the project in accordance with the amount specified in the construction management plan. Road closures shall not conflict with garbage pickup days or street sweeping days. Work within the public right of way, including road closures, shall not be permitted on weekends.
- f. Specify the expected frequency and quantity of dump truck trips for the various stages of the project.
- g. Specify what heavy equipment will be utilized at the various stages of the projects and its expected location and duration of use.

BRIEF DESCRIPTION OF PROPOSED PROJECT (attach separate sheet if needed):
REMODELING & ADDITIONS TO A 3-STORY SINGLE FAMILY
RESIDENCE

I, the undersigned owner (or authorized agent) of the property herein described, hereby make application for approval of the plans submitted and made a part of this application in accordance with the provisions of the Town Municipal Code, and I hereby certify that the information given is true and correct to the best of my knowledge and belief.

I understand that the requested approval is for my benefit (or that of my principal). Therefore, if the Town grants the approval, with or without conditions, and that action is challenged by a third party, I will be responsible for defending against this challenge, with the defense counsel subject to the Town's approval. I therefore agree to accept this responsibility for defense at the request of the Town and also agree to defend, indemnify and hold the Town harmless from any costs, claims or liabilities arising from the approval, including, without limitation, any award of attorney's fees that might result from the third party challenge.

Signature:* _____

Date: _____

The property involving this permit request may be subject to deed restrictions called Covenants, Conditions and Restrictions (CC&Rs), which may restrict the property's use and development. These deed restrictions are private agreements and are NOT enforced by the Town of Tiburon. Consequently, development standards specified in such restrictions are NOT considered by the Town when granting permits.

You are advised to determine if the property is subject to deed restrictions and, if so, contact the appropriate homeowners association and adjacent neighbors about your project prior to proceeding with construction. Following this procedure will minimize the potential for disagreement among neighbors and possible litigation.

Signature:* _____

Date: 8.4.16

**If other than owner, must have an authorization letter from the owner or evidence of de facto control of the property or premises for purposes of filing this application*

NOTICE TO APPLICANTS

Pursuant to California Government Code Section 65945, applicants may request to receive notice from the Town of Tiburon of any general (non-parcel-specific), proposals to adopt or amend the General Plan, Zoning Ordinance, Specific Plans, or an ordinance affecting building or grading permits.

If you wish to receive such notice, then you may make a written request to the Director of Community Development to be included on a mailing list for such purposes, and must specify which types of proposals you wish to receive notice upon. The written request must also specify the length of time you wish to receive such notices (s), and you must provide to the Town a supply of stamped, self-addressed envelopes to facilitate notification. Applicants shall be responsible for maintaining the supply of such envelopes to the Town for the duration of the time period requested for receiving such notices.

The notice will also provide the status of the proposal and the date of any public hearings thereon which have been set. The Town will determine whether a proposal is reasonably related to your pending application, and send the notice on that basis. Such notice shall be updated at least every six weeks unless there is no change to the contents of the notice that would reasonably affect your application. Requests should be mailed to:

Heckmann Architects

RE: 77 East View Ave.

Findings to support Front Setback Variance 15 Aug 16

1. The property is a steeply sloping downslope lot with the edge of slope beginning at the street edge. The only functional access must be at this edge of slope which is typical of most of the existing residences on this side of the street.
2. Most residences in this vicinity are also located very close to the front property line with very little setback.
3. Locating the structure beyond the front setback would push the structure to a precipitous and very difficult to build position on the property. This would also cause the structure to be oddly and impracticably narrow since the property depth is quite narrow.
4. Shifting the structure east to respect the front setback would place the structure and interior spaces such that they would impact the privacy and views of the two adjacent residences.

RE: 77 East View Ave.

Finding to support Height Variance

15 Aug 16

1. The steeply sloping nature of the existing property contributes to the need for encroachment of the roof of any practical building depth and roof shape that is compatible to the design character.
2. Many residences in this vicinity on similar steep terrain extend up beyond the height restriction.
3. If the structure respected the height limit, the resulting size and shape of the roof would be oddly configured and incompatible with the architectural style that is appropriate for the context of this property.
4. No adjacent residences have view impacts or imposing mass issues by the proposed roof height. The public has no clear view of the roof encroachment from the street frontage. The public view from the streets below will be of a structure that is the appropriate scale compared to the adjacent homes.

Heckmann Architects

RE: 77 East View Ave

Findings to support Floor Area Exception 15 Aug 16

1. The scale and massing of the proposed residence is quite similar to the adjacent residences on this street. The structure will also be complimentary to the surrounding homes on this hillside.
2. The vertical shape of the proposed structure and its limited depth from the street is compatible to the general shape and steepness of the existing property.

Heckmann Architects

77 Eastview Ave – List of Revisions

1. Garage - Replace gable roof with flat roof and lower plate line by 1 foot, remove about a foot of north side of garage, shift garage 3 feet toward the street.
- 2a. Upper Level – Abandon concept of privacy wall at north end of deck
- 2b. Upper Level - Reduce width of living room deck projection from 6'-5" to 4'-0"
- 2c. Upper Level – Increase dining room deck projection from 9'-10" to 10'-10"
3. Middle Lvl - Shift 'Bath 1' three feet toward the street
4. Middle Lvl - Retain roof of Bedroom 3 outside of Bedroom 1
5. Middle Lvl - Extend Master Bedroom by 2'-0" to the east
6. Middle Lvl - New location for stair down to Lower Level offset to the east
7. Lower Lvl - Extend wall of Bedroom 2 suite by 2'-0" to the east
8. Lower Lvl - New location for stair up to Middle Level offset to the east
9. Lower Lvl – Uphill retaining walls shift so that they define the west wall of the habitable spaces
10. Site plan - Omit landing at the top of railroad tie steps at north side of house
11. All levels – Pull back south wall at stair so NO setback encroachment
12. Add landscaping to site plan

PRELIMINARY ENVIRONMENTAL DETERMINATION

Town Planning Division Staff has made a preliminary determination that this proposal would be exempt from the provisions of the California Environmental Quality Act (CEQA), as specified in Section 15303.

PROJECT DESCRIPTION

The applicant is requesting Design Review approval for the construction of additions to an existing three-story single-family dwelling on property located at 77 East View Avenue. On the upper level, the existing great room would be expanded and converted into a living room, kitchen and dining room, along with a new two-car garage and a large deck to the rear. On the middle level, the existing living room, kitchen and dining room would be expanded and converted into a master bedroom suite, laundry room and storage, while also expanding another existing bedroom and adding a bathroom and a deck to the rear of the master bedroom. On the lower level, the

existing master bedroom suite would be expanded and converted into two bedrooms and bathrooms, with a deck off one bedroom. Seven skylights would be installed.

The lot coverage of the site would increase by 769 square feet to 1,536 square feet (29.1%), which is less than the 30.0% maximum lot coverage permitted in the R-1 zone. The floor area of the house would more than double, increasing from the current size of 1,546 square feet by 1,603 square feet to a total of 3,149 square feet (59.7%), which is greater than the 35.0% maximum floor area permitted for a lot of this size. A floor area exception is therefore requested.

In addition, the following variances would be required for the proposed house:

- The proposed house would extend to within 2 feet, 6 inches of the front property line, which would be less than the 15 foot front setback required in the R-1 zone.
- The proposed house would extend to within 6 feet, 3 inches of the east (right) side property line, which would be less than the 8 foot side setback required in the R-1 zone.
- The height of the proposed house would be 37 feet, which is greater than the 30 foot maximum building height in the R-1 zone.

A color and materials board has been submitted, and will be present at the meeting for the Board to review. The structure would be finished with off-white wood walls, with off-white and black trim. Grey asphalt shingle roofing would be installed.

PROJECT SETTING

The subject property is steeply sloped, with frontage on East View Avenue above, and extends down to the portion of Alcatraz Avenue below leading to Ark Row. The site is visible from the Ark Row portion of Main Street below.

Corinthian Island is a neighborhood with very small, steeply sloped lots. The northern half of Corinthian Island lies within Tiburon, while the southern half lies within Belvedere. Due to the steep topography and small lot sizes, most, if not all, homes on Corinthian Island have either received variances or have nonconforming conditions related to setbacks, lot coverage, building height and floor area ratio.

ANALYSIS

Design Issues

The homes on the Tiburon portion of Corinthian Island are generally small, ranging in size from 490 to 2,918 square feet. Only three homes in this area are larger than 2,500 square feet. The 3,149 square feet of floor area proposed as part of this application would make this the largest home in the immediate vicinity.

Story poles have been erected for the proposed additions. The poles do not appear to indicate substantial view impacts for any homes uphill from the site, but would be most visible from the homes on either side at 75 & 81 East View Avenue. The residence at 75 East View Avenue to the west has a guest room and deck below a parking pad which has some views toward downtown Tiburon and hillsides that might be affected by the proposed additions. However, views from the primary living areas of the home which are lower on the site would not appear to be affected by the additions.

The proposed additions feel very close to the home at 81 East View Avenue to the east of the site, but would not appear to affect primary views from this residence. Although the additions would comply with the required 8 foot side setback, the neighboring dwelling appears to be only about 2 feet from the side property line, resulting in a relatively narrow distance between the two buildings. The mass of the additions would most affect the windows closest to the street on both floors of the adjacent home and views to the west could be impacted for these windows, but other windows further to the rear appear to be situated beyond the line of the additions. The Design Review Board is encouraged to view the story poles from the homes at 75 & 81 East View Avenue.

The proposed additions would substantially widen the existing home and would make the footprint of the house stretch across nearly the entire width of the lot. The additions would extend up to the west side setback and 1 foot, 9 inches into the east side setback. As noted above, the additions would make the house feel very close to the residence at 81 East View Avenue. In addition, stairways leading down the east side of the house would make the home feel even closer to the home at 75 East View Avenue. Due to these concerns and given the large proposed size of the house relative to other homes on Corinthian Island, Staff believes that the additions should at least be pulled back to comply with the east side setback and possibly pulled back from the west side setback to better separate the building from the home at 81 East View Avenue.

Issues have been raised on other lots on Corinthian Island regarding the location of property lines, with different deeds and historical maps creating confusion over the actual property lines for individual lots. The neighboring property owners at 81 East View Avenue have raised questions about the accuracy of the property lines shown on the submitted plans and have requested that a survey be completed to determine the side property line between the two lots. A pin has been

recently installed in the street at the shared property line by the applicant's civil engineer. The Design Review Board should determine whether there is sufficient doubt over the accuracy of the submitted plans to require such a survey.

Zoning

Staff has reviewed the proposal and finds that it is generally not in conformance with the development standards for the R-1 zone, as variances are requested for reduced front and side setbacks and excess building height, along with a floor area exception.

In order to grant the requested variances, the Board must make all of the following findings required by Section 16-52.030 (E) of the Tiburon Zoning Ordinance:

- 1. Because of special circumstances applicable to the property, including size, shape, topography, location, or surroundings, the strict application of this Ordinance will deprive the applicant of privileges enjoyed by other properties in the vicinity and in the same or similar zones.*

The subject property has a small size and steep topography by both the standards of Corinthian Island and of Tiburon as a whole. The strict application of the R-1 development standards would deprive the owners of this property of development privileges enjoyed by other properties in the vicinity which have pulled homes into the front setback and exceed the maximum building height on such steep lots.

However, the lot is approximately 68 feet wide in the area of the house, which exceeds the 40 foot minimum lot width required in the R-1 zone. There are no special circumstances applicable to this property that would make the strict application of the side setback requirement deprive the applicant of privileges enjoyed by other properties in the vicinity.

- 2. The Variance will not constitute a grant of special privileges, inconsistent with the limitations upon other properties in the vicinity and in the same or substantially the same zone.*

Numerous other properties on Corinthian Island have received variances for reduced setbacks and excess building height.

- 3. The strict application of this Zoning Ordinance would result in practical difficulty or unnecessary physical hardship. Self-created hardships may not be considered among the factors that might constitute special circumstances. A self-created hardship results from actions taken by present or prior owners of the property that consciously create the very difficulties or hardships claimed as the basis for an application for a Variance.*

The strict interpretation of the required front setback and maximum building height would result in a house that would be pushed further down the steep site and kept lower in a manner that would be inconsistent with the development pattern of other homes on Corinthian Island. The strict application of the required side setback would not substantially alter the design of the house and would not result in a practical difficulty or unnecessary hardship on the applicant.

4. *The granting of the variance will not be detrimental to the public welfare or injurious to other properties in the vicinity.*

As noted above, the proposed project may create view impacts for the home at 81 East View Avenue. However, these view impacts would not appear to be the result of the requested reductions in front or side setbacks. Although the height of the additions could add to this concern, there are also portions of the proposed additions which would exceed the maximum building height that would not result in any impacts on neighboring homes.

In order to grant the requested floor area exception, the Design Review Board must make the following findings as required by Section 16-52.020(I[4]) of the Tiburon Zoning Ordinance:

1. *The applicant has demonstrated that the visual size and scale of the proposed structure is compatible with the predominant pattern established by existing structures in the surrounding neighborhood.*

Many of the homes on Corinthian Island are visually prominent, similar to the design of the house with the proposed additions.

2. *The applicant has demonstrated that the proposed structure is compatible with the physical characteristics of the site. The characteristics include, but are not limited to, shape and steepness of the lot, ease of access, and the presence of natural features worthy of retention, such as trees, rock outcroppings, stream courses and landforms.*

The overall design of the proposed additions would be considered to be generally compatible with the steep physical layout of the site and the limited lot size. As noted above, the additions would appear to be wider than necessary for the site and would make the house feel too close to the home at 81 East View Avenue.

From the evidence provided, Staff believes that there is sufficient evidence to support the findings for the requested variances for reduced front setback and excess building height and floor area exception, but not for the side setback variance.

Public Comment

As of the date of this report, one letter has been received regarding the subject application from the owners of 81 East View Avenue.

RECOMMENDATION

The Design Review Board should review this project with respect to Zoning Ordinance Sections 16-52.020 (H) (Guiding Principles) and determine that the project is exempt from the provisions of the California Environmental Quality Act (CEQA) as specified in Section 15303. If the Board agrees with staff's conclusions, it is recommended that the application should be continued with direction to redesign the project to comply with the required side setback and address any other design concerns. If the Board can make the findings required to approve the requested side

setback variance, along with the other variances and exception, it is recommended that the attached conditions of approval be applied.

3. Letter from Andrina and Ken Weller, dated September 19, 2016
4. Submitted plans

Prepared By: Daniel M. Watrous, Planning Manager

Cedric Barringer, owner and designer, said that the footprint and FAR of the design remained unchanged. He described changes to the building volume, roof height and windows. He reviewed the landscape plan and noted that a fast growing, thick screening hedge would be planted between the house and 10 Apollo Road along the entire property line. He stated that only the tops of the fixed windows would be visible above the hedge, but he agreed to grow the hedge higher if needed. He stated that this design would be less intrusive to the neighbors, respect the setbacks, and respect the privacy of all of his neighbors, and he believed that the house would add value to the neighborhood.

There were no public comments.

Boardmember Tollini said that the project initially started out too large and did not fit proportionally within the constraints of the lot and neighborhood and the second revision was a modest improvement. After visiting the site again, he believed that the third revision worked. He noted that there were no objections to the project, which demonstrated that the concerns were satisfied. He said that his only concern was the height of the east-facing glazing, but he noted that it would face into the center of the lot and be screened by landscaping. He felt that the architect did a great job responding to the directions of the Board, and he fully supported the project.

Vice Chair Emberson stated that she also supported the project. She asked about relation of the deck height to the finished grade and Mr. Barringer said that the existing slab is 6 inches above the current grade, and after removing the deck the slab would be about 3 inches lower than the existing deck.

Chair Kricensky agreed with the other Boardmembers. He said that the project was reasonable and his only concern was the height of the windows on the east side. He stated that the windows might have recessed lights that would be visible through the top windows. Boardmember Tollini said that the angle of the roof would not be severe enough for those lights to be seen directly. Chair Kricensky acknowledged that the lights might be far away. Vice Chair Emberson stated that the lights would not be too visible with the landscape screening.

ACTION: It was M/S (Emberson/Tollini) that the request for 8 Apollo Road is exempt from the California Environmental Quality Act and to approve the request, subject to the attached conditions of approval. Vote: 3-0.

2. **77 EAST VIEW AVENUE:** File Nos. DR2016104, VAR2016033, VAR2016034, VAR2016035 & FAE2016011; Clinton Yee, Owner; Site Plan and Architectural Review for construction of additions to an existing single-family dwelling, with Variances for reduced front and side setbacks and excess building height, and a Floor Area Exception. The applicant proposes to construct 1,603 square feet additions to an existing three-story house, which would result in a floor area ratio of 59.7%, which is greater than the 35.0% maximum for a lot of this size. The front setback would be 2 feet, 6 inches in lieu of the minimum 15 feet. The east side setback would be 6 feet, 3 inches in lieu of the minimum 8 feet. The house would be 37 feet tall, in lieu of the maximum building height of 30 feet. Assessor's Parcel No. 060-105-92.

The applicant is requesting Design Review approval for the construction of additions to an existing three-story single-family dwelling on property located at 77 East View Avenue. On the upper level, the existing great room would be expanded and converted into a living room, kitchen and dining room, along with a new two-car garage and a large deck to the rear. On the middle level, the existing living room, kitchen and dining room would be expanded and converted into a master bedroom suite, laundry room and storage, while also expanding another existing bedroom and adding a bathroom and a deck to the rear of the master bedroom. On the lower level, the existing master bedroom suite would be expanded and converted into two bedrooms and bathrooms, with a deck off one bedroom. Seven skylights would be installed.

The lot coverage of the site would increase by 769 square feet to 1,536 square feet (29.1%), which is less than the 30.0% maximum lot coverage permitted in the R-1 zone. The floor area of the house would more than double, increasing from the current size of 1,546 square feet by 1,603 square feet to a total of 3,149 square feet (59.7%), which is greater than the 35.0% maximum floor area permitted for a lot of this size. A floor area exception is therefore requested.

In addition, the following variances would be required for the proposed house:

- The proposed house would extend to within 2 feet, 6 inches of the front property line, which would be less than the 15 foot front setback required in the R-1 zone.
- The proposed house would extend to within 6 feet, 3 inches of the east (right) side property line, which would be less than the 8 foot side setback required in the R-1 zone.
- The height of the proposed house would be 37 feet, which is greater than the 30 foot maximum building height in the R-1 zone.

Michael Heckmann, architect, Described the project and said that they started with a design concept that was meant to be a clean, uncluttered, traditional style and would capture views toward Angel Island. He said that the project would not obstruct the views from neighboring homes. He believed that they have responded positively to any issues between neighbors. He said that there would be a sizable distance between the buildings, which would be a reasonable distance between houses on this street given the predominant development pattern in the vicinity. He stated that the neighbors' views that would be impacted are not from primary living spaces, but were views across a mostly vacant lot. He presented photographs of the various properties that are impacted and he stated that the critical views of all of these properties would be preserved. He noted the floor area ratios of many houses in the neighborhood are similar to what was proposed, with some lower and some higher. He said that he communicated with the owners of 81 and 75 East View Avenue, but only met with the Welters yesterday due to their travel schedule. He said that they were respectful of the neighbors and that their views and privacy would be preserved by this design.

Vice Chair Emberson said that the location of the wood deck for the home at 81 East View Avenue is on the property and she felt that that raised questions about the location of the

property line is. She asked to see a certified copy of the survey. Mr. Heckmann said that a boundary survey was recorded with the County, and he shared the content of what was filed.

Boardmember Tollini asked if the topography was extracted from the survey. Mr. Heckmann said that all of the design was done with information from the survey and all of the boundary lines matched what was filed with the county.

The public hearing was opened.

Ken Welter said that they were not aware of any filing of the boundary survey with the county. He said that his home was built on the same footprint as it was originally constructed. He characterized the project design as a large mass, vertical, and plain. He said that the middle level of their house is their main living area which includes their kitchen, dining, and living room. He displayed photographs showing how much of the view would be blocked by the project from various rooms. He said that they were disputing the boundary on the survey and stated that the original boundary was respected for 50 years. He said that the landscaping is completely overgrown and they have not seen a proposal for landscaping other than removing trees. He felt that the house would be too large for the neighborhood. He said that the story poles did not appear to be accurate or detailed enough. He said that he spoke with Mr. Heckmann about moving the house toward the street to reduce impacts.

Andrea Welter said that they have big concerns over the project, including losing views. She said that the house would double in size and add a garage and would look monstrous on the hillside. She said that they would like a home that did not feel like it was on top of theirs and more in keeping with the size of other homes in the area. She said that they would like to get another opinion from another surveyor and she was concerned that the project was basing the setback and including part of their floor area based on this other survey.

Ulrik Binzer stated that they went through a similar situation with the house at 85 East View Avenue and he thought that it would be prudent to take some time now to explore issues regarding the survey. He stated that the house design seemed plain and would not terrace in accordance with the Hillside Design Guidelines. He suggested using the space closer to the road for expansion rather than pushing the house out into neighbors' views.

David Sparks said that he purchased a home designed by a renowned architect, with multiple levels and it is relatively small. He said that it was very important to carefully consider the impact of anything to be built in the neighborhood that would destroy the area and compromise views. He felt that the existing home needed to be renovated, but these issues need to be addressed in a way that would respect and enhance the existing neighborhood.

Mr. Heckmann stated that he believed that the house design was well articulated and would be a nice, straightforward home with traditional themes. He believed that that this would be a great asset to the neighborhood. He described discussions with the Welters regarding surveys and topographic maps. He stated that no view corridors have been recorded across this site and said that the views that would be blocked from the Welters' house were secondary rooms and they would preserve views from the primary rooms.

Vice Chair Emberson said she did not see a story pole that matched the main ridgeline and asked whether the story poles were correct. Mr. Heckmann said that they could add a story pole showing the ridge. He stated that several trees would be removed, which would help the neighbors' views.

The public hearing was closed.

Vice Chair Emberson pointed out that this would be the biggest house in the neighborhood on one of the largest lots, and that the other large lot has a 2,800 square foot house. She believed that the house would be too big for the lot and she is worried that the recorded map was different than the survey. She said that she could not possibly make an informed decision without knowing the property boundaries. She believed that the house would be too big for the lot, too big for the neighborhood, and she characterized the east elevation of the design as underwhelming.

Boardmember Tollini agreed with Vice Chair Emberson. He stated that he visited the house at 75 East View Avenue. He said that the views that would be impacted for the home at 81 East View Avenue were primarily secondary views from bedrooms, but he felt that the project was too impactful. He said that the project felt too close to the home at 81 East View Avenue. He said that the western windows would resemble a light well. He stated that the house would be very wide and inconsistent with the pattern of development for the neighborhood of narrower homes. He said that additional floor area was requested to make the house wider and if more area was needed it should step down the hillside. He said that the privacy of the master bedroom at 81 East View Avenue would also be significantly impacted by the proposed deck and any deck at that level needed to be on the eastern side of the property. He said that it would be great if the neighbors could agree on the facts of the surveys. He said that this larger lot should not have such a disproportionately high floor area exception.

Chair Kricensky agreed with the other Boardmembers. He stated that the structure had to be wide to avoid building down the hillside and blocking views, but because it would be so wide, it would appear massive. He did not believe that the Board would even consider encroaching on the setback with a lot this size. He said that there needed to be more breathing space between the homes. He said that the use of the deck would not be compatible with the neighbors' bedroom. He suggested moving the house back towards the road, but understood that engineering it might not be feasible. He suggested making the house narrower and giving the applicant time to talk with their neighbors and see their rooms. He said that there has to be some give and take, and the house could be expanded to some extent.

Boardmember Tollini said that it was reasonable to expect some redevelopment of the property and some impacts, and he did not think there were borrowed views, but he felt that the proposed project was not close to being acceptable.

ACTION: It was M/S (Tollini/Emberson) to continue the application for 77 East View Avenue to the December 1, 2016 meeting. Vote: 3-0.

BACKGROUND

Following a public hearing and discussion at its November 3, 2016 regular meeting, the Design Review Board directed to staff to prepare draft resolutions denying appeals of an approved tree permit (File No. TREE2016001) to permit the removal of one (1) Italian Stone Pine tree and one (1) Cajeput tree on Town of Tiburon right-of-way adjacent to property located at 150 Avenida Miraflores and a denied tree permit (File No. TREE2016017) to permit the after-the-fact planting of one (1) Italian Stone Pine tree, one (1) Cajeput tree, one (1) Cotoneaster tree and one (1) Privet tree on the same property. The resolutions were to be considered for adoption at the next regular meeting.

The draft resolutions are attached as **Exhibits 1 & 2**. Draft minutes of the November 3, 2016 meeting are also included in the Design Review Board packet.

RECOMMENDATION

Staff recommends that the Board adopt the draft resolutions denying the subject appeals.

ATTACHMENTS

RESOLUTION NO. 2016-(Draft)

A RESOLUTION OF THE DESIGN REVIEW BOARD OF THE TOWN OF TIBURON DENYING AN APPEAL BY EDWIN AND NANCY CLOCK OF THE APPROVAL OF A TREE PERMIT WITHIN TOWN OF TIBURON RIGHT-OF-WAY ADJACENT TO 150 AVENIDA MIRAFLORES

ASSESSOR PARCEL NO. 039-111-09

WHEREAS, On January 12, 2016, the Town of Tiburon received an application for a Tree Permit (File #TREE2016001) to permit the removal of one (1) Italian Stone Pine tree and one (1) Cajeput tree on Town of Tiburon right-of-way adjacent to property located at 150 Avenida Miraflores, proposed by Firuze Hariri ("Applicant"), the owner of the property at 163 Avenida Miraflores; and

WHEREAS, Town staff recognized that these trees were properly defined as "tree" under the Town of Tiburon Guide to Policies for Trees on Town Property and the provisions of Title IV, Chapter 15A (Trees) of the Tiburon Municipal Code (Tiburon Tree Ordinance), processed the application pursuant to the Tiburon Tree Ordinance, and notified neighboring property owners and consulted with Edwin and Nancy Clock ("Appellants"), the owners of the property at 150 Avenida Miraflores, during the process; and

WHEREAS, on April 20, 2016, Town staff conditionally approved the subject application; and

WHEREAS, on May 2, 2016, the Appellants filed a timely appeal of the staff's decision to conditionally approve the application; and

WHEREAS, on November 3, 2016, the Design Review Board held a duly-noticed hearing on the appeal, during which testimony was heard and considered regarding the application and the Planning Division staff's review of the application; and

WHEREAS, the Design Review Board reviewed the application in accordance with provisions of the Tiburon Tree Ordinance, and based on site visits, application materials and analysis contained in the staff report dated November 3, 2016 and in the entire record, and hearing all testimony at the appeal hearing, finds that the approval, as conditioned, is consistent with applicable purposes, policies and regulations of said Chapter and that the subject trees should be removed. The Board determined that the trees intrude into the Applicant's views and do not provide substantial privacy or visual screening, erosion control or wind protection for the Appellants' home, or are not Protected Trees as defined in the Tiburon Tree Ordinance; and

WHEREAS, the Design Review Board voted 4-0 to direct Staff to prepare a resolution denying the appeal.

NOW, THEREFORE BE IT RESOLVED that the Design Review Board of the Town of Tiburon does hereby deny the appeal of the approval of the Tree Permit application for the reasons set forth above.

PASSED AND ADOPTED at a regular meeting of the Design Review Board of the Town of Tiburon on December 1, 2016, by the following vote:

KYRA O'MALLEY, SECRETARY

RESOLUTION NO. 2016-(Draft)

A RESOLUTION OF THE DESIGN REVIEW BOARD OF THE TOWN OF TIBURON DENYING AN APPEAL BY EDWIN AND NANCY CLOCK OF THE DENIAL OF A TREE PERMIT WITHIN TOWN OF TIBURON RIGHT-OF-WAY ADJACENT TO 150 AVENIDA MIRAFLORES

ASSESSOR PARCEL NO. 039-111-09

WHEREAS, On May 9, 2016, the Town of Tiburon received an application for a Tree Permit (File #TREE2016017) to permit the after-the-fact planting of one (1) Italian Stone Pine tree, one (1) Cajeput tree, one (1) Cotoneaster tree and one (1) Privet tree on Town of Tiburon right-of-way adjacent to property located at 150 Avenida Miraflores, proposed by Edwin and Nancy Clock ("Appellants"), the owners of the property at 150 Avenida Miraflores; and

WHEREAS, Town staff followed the Town of Tiburon Guide to Policies for Trees on Town Property and the provisions of Title IV, Chapter 15A (Trees) of the Tiburon Municipal Code (Tiburon Tree Ordinance) and notified neighboring property owners and consulted with the Appellants during the process; and

WHEREAS, on July 26, 2016, Town staff denied the subject application; and

WHEREAS, on August 8, 2016, the Appellants filed a timely appeal of the staff's decision to deny the application; and

WHEREAS, on November 3, 2016, the Design Review Board held a duly-noticed hearing on the appeal, during which testimony was heard and considered regarding the application and the Planning Division staff's review of the application; and

WHEREAS, the Design Review Board reviewed the application in accordance with provisions of the Tiburon Tree Ordinance, and based on site visits, application materials and analysis contained in the staff report dated November 3, 2016 and in the entire record, and hearing all testimony at the appeal hearing, finds that the denial of the appeal is appropriate, because the trees would not have been approved by the Town if requested prior to their planting, due to the potential for view impairment caused by these trees in this location to neighboring properties; and

WHEREAS, the Design Review Board bases its decision on the Tiburon Tree Ordinance which addresses these plantings as trees, and requires consideration for the potential for unreasonable or undesirable view blockage by trees at maturity, and the trees subject to this appeal impact the views of neighboring properties; and

WHEREAS, maintenance and retention of the trees subject to this appeal would not materially aid in the creation of shade, privacy, soil stability, noise buffering, wind protection and erosion and landslide prevention to Appellant's property; and

WHEREAS, the Design Review Board voted 4-0 to direct Staff to prepare a resolution denying the appeal.

NOW, THEREFORE BE IT RESOLVED that the Design Review Board of the Town of Tiburon does hereby deny the appeal of the denial of the Tree Permit application for the reasons set forth above.

PASSED AND ADOPTED at a regular meeting of the Design Review Board of the Town of Tiburon on December 1, 2016, by the following vote:

Re: Tree 2016001 & Tree 2016017

From: Appellants/Property Owners Edwin H. Clock and Nancy M. Clock

Date: November 8, 2016

Following the Design Review Board's hearing last Thursday evening, November 3, 2016, we met with our professional arborists and determined that it would be possible to transplant several of the landscaping to our private property that was at issue in the hearing.

Specifically, we request that DRB grant us permission to transplant – rather than cut down and kill – the privet, the cotoneaster and the melaleuca quinquenervia currently located on Town right of way to our private property (the southeast corner of our 19,000 square foot lot) where none of these landscaping will be visible from either Avenida Miraflores nor lower Francisco Vista Court. We believe it to be consistent with both the Tiburon Tree and View ordinances to maintain viable and attractive landscaping when no view impairment is involved.

Thank you in advance for including this provision in your final resolutions. Of course, we retain the right to appeal DRB's final ruling to the Tiburon Town Council at the appropriate time.

Design Review Board Meeting
December 1, 2016
Agenda Item: **4**

STAFF REPORT

To: **Members of the Design Review Board**

From: **Community Development Department**

Subject: **NOTICE OF CONTINUANCE**
23 Mercury Avenue; File No. DR2016075; Site Plan and Architecture
Review for Construction of a New Single-Family Dwelling

Staff recommends that this item be continued for the following reason(s):

- ☒ No story poles have been erected/no certification received
- ☐ Requested information has not been received
- ☐ Item not properly advertised
- ☒ The applicant has requested a continuance to January 19, 2017
- ☐ **Other:**

The application will be continued to the January 19, 2017 Design Review Board meeting.

Kyra O'Malley

From: Dilys Bart <djbart1@aol.com>
Sent: Tuesday, November 22, 2016 1:30 PM
To: Kyra O'Malley
Subject: please include this email with the packet for 9 Mercury Avenue -- thank you!

To the Design Review Board:

We would like to object to the current proposal for 9 Mercury Avenue. The application was completed yesterday (Monday). Today Reed school students are dismissed for the Thanksgiving holiday. Neighbors are expected to be gone until Sunday, leaving only three days (Monday to Wednesday) to contact neighbors. We would like to request that the DRB allow us until the December 15th meeting to ask neighbors how they feel about the current proposal and for us to prepare a brief letter discussing the relevant issues.

DRB members are invited to come to 11 Mercury Avenue to see the impact of the current proposal on our privacy and light. If we are not at home, please feel free to walk through the side gate on the left (south) side to see the story poles from the garden. We think seeing the story poles is very informative. (The wooden gate drags a bit on the ground, so one may want to lift up on opening it. Also please ignore the two small dogs inside the house barking their heads off.)

Best regards,
Dilys Bart and Tyler Shelton

Design Review Board Meeting
December 1, 2016
Agenda Item: **5**

STAFF REPORT

To: Members of the Design Review Board
From: Community Development Department
Subject: 200 Round Hill Road; File No. DR2016129; Site Plan and Architectural Review for Construction of Additions to an Existing Single-Family Dwelling

PROJECT DATA

ADDRESS: 200 ROUND HILL ROAD
OWNER: PHIL AND JEN BENNETT
APPLICANT: TODD DAVIS ARCHITECTURE
ASSESSOR'S PARCEL: 058-252-01
FILE NUMBER: DR2016129
LOT SIZE: 19,763 SQUARE FEET
ZONING: RO-2 (RESIDENTIAL-OPEN)
GENERAL PLAN: M (MEDIUM DENSITY RESIDENTIAL)
FLOOD ZONE: X
DATE COMPLETE: NOVEMBER 9, 2016

PROPOSAL

The applicant is requesting to construct additions to an existing single-family dwelling, on property located at 200 Round Hill Road. The property is currently developed with a 3,317 square foot single-family dwelling.

The proposal consists of adding 723 square feet to the lower level of the existing dwelling, which would include a guest room, bathroom, storage, playroom and office. In addition, two existing guest rooms would be converted into a 536 square foot two-car garage.

Other proposed improvements would include modified windows and doors on all sides of the existing home, six new skylights on the roof, an expanded upper level deck with new metal guardrail and an exterior staircase connected to a new patio and lawn area. The majority of the existing landscaping would remain throughout the property with a few existing trees removed from the property. The existing driveway would be expanded and resurfaced to accommodate additional off-street parking.

The proposal would result in a gross floor area of 3,504 square feet, which is below the maximum permitted gross floor area for the property (3,976 square feet). The proposal would result in lot

coverage of 2,954 square feet (14.9%), which is below the 15.0% maximum permitted lot coverage in the RO-2 zone.

The proposed colors and materials include a gray artisan v-rustic siding and white trim for the addition and entire house. The roofing would remain the same. A colors and materials board has been submitted and will be present at the meeting for the Board to review.

PROJECT SETTING

The subject property is located near the top of Round Hill Road with views of San Francisco, bay, Golden Gate Bridge, and Sausalito. The property slopes upwards parallel from the street.

ANALYSIS

Design Issues

The majority of the additions would be situated within the same footprint as the lower level of the existing footprint of the dwelling with a small portion underneath the proposed deck expansion. Existing living space would be converted back into a two-car garage, which would be within the same footprint as the existing dwelling and existing crawlspace would be converted into living space with a small exterior addition of 402 square feet towards the downhill slope of the property. The proposed windows on all sides of the home and additions would be similar to the existing windows. The addition would be towards the driveway and on the downslope of the property, which would not appear to create view or privacy impacts on neighboring properties.

Zoning

Staff has reviewed the proposal and finds that it is in conformance with the development standards for the RO-2 zone.

PUBLIC COMMENT

As of the date of this report, no letters have been received regarding the subject application.

PRELIMINARY ENVIRONMENTAL DETERMINATION

Town Planning Division Staff has made a preliminary determination that this proposal would be exempt from the provisions of the California Environmental Quality Act (CEQA), as specified in Sections 15301 and 15303.

RECOMMENDATION

The Design Review Board should review this project with respect to Zoning Ordinance Sections 16-52.020 (H) (Guiding Principles), and determine that the project is exempt from the provisions of the California Environmental Quality Act (CEQA) as specified in Sections 15301 and 15303. If the Design Review Board wishes to approve the application, it is recommended that the attached conditions of approval be applied.

ATTACHMENTS

1. Conditions of Approval
2. Application and Supplemental Materials
3. Submitted Plans

Prepared by Kyra O'Malley, Associate Planner

ATTACHMENT 1

**DRAFT CONDITIONS OF APPROVAL
200 ROUND HILL ROAD
FILE NO. DR2016129**

1. This approval shall be used within three (3) years of the approval date, and shall become null and void unless a building permit has been issued.
2. Construction shall conform to the application and plans dated by the Town of Tiburon on September 29, 2016 as amended by these conditions of approval. Any modifications to the plans dated November 15, 2016 must receive Design Review approval.
3. Project elements shown on construction drawings submitted to the Building Division for plan check shall be essentially identical to those project elements shown on drawings approved by the Design Review Board. The permit holder is responsible for clearly identifying on construction drawings any and all changes to project elements. Such changes must be clearly highlighted (with a "bubble" or "cloud") on the construction drawings. A list describing in detail all such changes shall be submitted and attached to the construction drawings, with a signature block to be signed by the Planning Division Staff member indicating whether these changes have been reviewed and are approved, or will require additional Design Review approval. All such changes that have not been explicitly approved by the Town are not "deemed approved" if not highlighted and listed on construction drawings. Construction of any such un-approved project elements is in violation of permit approvals and shall be subject to Stop Work Orders and removal.
4. If this approval is challenged by a third party, the property owner/applicant will be responsible for defending against this challenge, with defense counsel subject to the Town's approval. The property owner/applicant agrees to defend, indemnify and hold the Town of Tiburon harmless from any costs, claims or liabilities arising from the approval, including, without limitations, any award of attorney's fees that might result from the third party challenge.
5. The applicant must meet all requirements of other agencies prior to the issuance of a building permit for this project.
6. All exterior lighting fixtures other than those approved by the Design Review Board must be down-light-type fixtures.
7. The project shall comply with the following requirements of the California Fire code and the Tiburon Fire Protection District:
 - a. The structure shall have installed throughout an automatic fire sprinkler system. The system design, installation and final testing shall be approved by the District Fire Prevention Office. (CFC 903.2)
 - b. Approved smoke and carbon monoxide alarms shall be installed to provide protection to all sleeping areas. (CFC 907.2.10)
 - c. The vegetation on this parcel shall comply with the requirements of the Tiburon Fire Protection District. (CFC 304.12)

8. All requirements of the Marin Municipal Water District shall be met prior to issuances of a building permit.
9. All requirements of the Sanitary District No. 5 shall be met prior to issuances of a building permit.
10. A construction sign shall be posted on the site during construction of the project, in a location plainly visible to the public. The sign shall be 24" x 24" in size and shall be made of durable, weather-resistant materials intended to survive the life of the construction period. The sign shall contain the following information: job street address; work hours allowed per Chapter 13 of the Tiburon Municipal Code; builder (company name, city, state, ZIP code); project manager (name and phone number); and emergency contact (name and phone number reachable at all times). The sign shall be posted at the commencement of work and shall remain posted until the contractor has vacated the site.
11. All skylights shall be bronzed or tinted in a non-reflective manner (minimum 25%) and no lights shall be placed in the wells.
12. All requirements of the Tiburon Public Works Department shall be met prior to issuances of a building permit.
 - a. An Encroachment Permit from DPW is required for any work within the Town's right-of-way, including, but not limited to, utility trenching, installation of new utility connections and modifications to the driveway apron. The plans shall clearly identify all proposed work in the right of way and an Encroachment Permit shall be obtained prior to conducting such work.
 - i. A portion of the parking area shall be moved entirely within the private property. Prior to building permit issuance, revised the plans accordingly to remove the encroaching parking area.
13. A copy of the Planning Division's "Notice of Action" including the attached "Conditions of Approval" for this project shall be copied onto a plan sheet at the beginning of the plan set(s) submitted for building permits.

BRIEF DESCRIPTION OF PROPOSED PROJECT (attach separate sheet if needed):

434 ADDITION SEE ATTACHED SHEET

I, the undersigned owner (or authorized agent) of the property herein described, hereby make application for approval of the plans submitted and made a part of this application in accordance with the provisions of the Town Municipal Code, and I hereby certify that the information given is true and correct to the best of my knowledge and belief.

I understand that the requested approval is for my benefit (or that of my principal). Therefore, if the Town grants the approval, with or without conditions, and that action is challenged by a third party, I will be responsible for defending against this challenge, with the defense counsel subject to the Town's approval. I therefore agree to accept this responsibility for defense at the request of the Town and also agree to defend, indemnify and hold the Town harmless from any costs, claims or liabilities arising from the approval, including, without limitation, any award of attorney's fees that might result from the third party challenge.

Date:

9/29/16

The property involving this permit request may be subject to deed restrictions called Covenants, Conditions and Restrictions (CC&Rs), which may restrict the property's use and development. These deed restrictions are private agreements and are NOT enforced by the Town of Tiburon. Consequently, development standards specified in such restrictions are NOT considered by the Town when granting permits.

You are advised to determine if the property is subject to deed restrictions and, if so, contact the appropriate homeowners association and adjacent neighbors about your project prior to proceeding with construction. Following this procedure will minimize the potential for disagreement among neighbors and possible litigation.

Signature:*

Date:

9/29/16

**If other than owner, must have an authorization letter from the owner or evidence of de facto control of the property or premises for purposes of filing this application*

NOTICE TO APPLICANTS

Pursuant to California Government Code Section 65945, applicants may request to receive notice from the Town of Tiburon of any general (non-parcel-specific), proposals to adopt or amend the General Plan, Zoning Ordinance, Specific Plans, or an ordinance affecting building or grading permits.

If you wish to receive such notice, then you may make a written request to the Director of Community Development to be included on a mailing list for such purposes, and must specify which types of proposals you wish to receive notice upon. The written request must also specify the length of time you wish to receive such notices (s), and you must provide to the Town a supply of stamped, self-addressed envelopes to facilitate notification. Applicants shall be responsible for maintaining the supply of such envelopes to the Town for the duration of the time period requested for receiving such notices.

The notice will also provide the status of the proposal and the date of any public hearings thereon which have been set. The Town will determine whether a proposal is reasonably related to your pending application, and send the notice on that basis. Such notice shall be updated at least every six weeks unless there is no change to the contents of the notice that would reasonably affect your application. Requests should be mailed to:

Design Review Board Meeting
December 1, 2016
Agenda Item: **6**

STAFF REPORT

To: Members of the Design Review Board
From: Community Development Department
Subject: 9 Mercury Avenue; File No. DR2016132; Site Plan and Architecture Review for Construction of a New Single-Family Dwelling

PROJECT DATA

ADDRESS: 9 MERCURY AVENUE
OWNER: TODD AND GENA DAVIS
APPLICANT: JAMES PHILLIP WRIGHT (ARCHITECT)
ASSESSOR'S PARCEL: 034-252-10
FILE NUMBER: DR2016132
LOT SIZE: 8,278 SQUARE FEET
ZONING: R-1 (SINGLE-FAMILY RESIDENTIAL)
GENERAL PLAN: MH (MEDIUM HIGH DENSITY RESIDENTIAL)
FLOOD ZONE: X
DATE COMPLETE: NOVEMBER 9, 2016

PROJECT DESCRIPTION

The applicant is requesting Design Review approval for the construction of additions to an existing two-story single-family dwelling on property located at 23 Mercury Avenue. The house was originally a one-story structure. A two-story addition with a small upstairs 147 square foot studio was approved in 1988.

The first floor of the house would be expanded to the front and rear. New den, kitchen and laundry room would extend to the rear of the house, while a new two-car garage would be constructed in front. A new master bedroom suite would be constructed on the second floor, centered above the first floor. Several existing skylights would be replaced and new skylights added, with a total of seven (7) skylights installed. New fireplaces and chimneys would be constructed at the front and rear of the house.

The floor area of the house would be increased by 1,043 square feet to a total of 2,804 square feet, which is 25 square feet less than the maximum floor area permitted for a lot of this size. The lot coverage would be increased by 864.5 square feet to a total of 2,479 square feet (29.9%), which is 4 square feet less than the 30.0% maximum lot coverage permitted in the R-1 zone.

A color and materials board has been submitted, and will be present at the meeting for the Board to review. The structure would be finished with grey wood siding with light brown stucco trim. A brown standing seam metal roof would be installed.

PROJECT SETTING

The subject property is roughly rectangular and flat. The site is on the perimeter of the Belveron East subdivision, and is one of the larger lots in this neighborhood.

Belveron East is a neighborhood of single-family dwellings originally developed in the 1950s. Most of the homes in this subdivision are single-story structures, although some two-story homes are scattered through the neighborhood, including the subject residence. The Tiburon Town Council has recently given direction to the Design Review Board to discourage two-story homes in the interior of this subdivision.

ANALYSIS

Design Issues

As noted above, the Town Council has recently given direction to the Design Review Board regarding review of two-story homes in the Belveron East neighborhood. The Council discouraged two-story buildings in the interior portion of the subdivision, but left open the possibility for two-story homes on the perimeter of the neighborhood. The location of the subject property on the uphill side of Mercury Avenue would be considered part of the perimeter of the subdivision.

Most two-story homes in Belveron East include relatively modest second story areas, often the size of a master bedroom suite, and centered over the first floor of the house. The proposed second level would be centered on the building footprint, but would be considerably larger than most other second story spaces in the vicinity. The 714 square foot floor area of the second level would be somewhat larger than other second story living spaces in the Belveron East

neighborhood. The 25 maximum height of the house would also be substantially taller than other two-story structures in the vicinity.

The proposed chimney at the rear of the house would be used for a wood-burning fireplace on the exterior of the residence, with gas-burning fireplaces facing into the living room and den. Another wood-burning fireplace and chimney for the family room would be placed at the front of the house. The rear chimney would reach a height of 28 feet, 10 inches and would exacerbate the additional building mass and volume of the proposed second story.

The second story master bedroom suite would include several new windows facing the homes to either side at 7 & 11 Mercury Avenue. The windows would be relatively small and do not appear to create the potential for substantial privacy impacts for these neighboring dwellings. The Design Review Board is encouraged to view the story poles from the homes at 7 & 11 Mercury Avenue.

Zoning

Staff has reviewed the proposal and finds that it is in conformance with the development standards for the R-1 zone.

Public Comment

As of the date of this report, no letters have been received regarding the subject application.

PRELIMINARY ENVIRONMENTAL DETERMINATION

Town Planning Division Staff has made a preliminary determination that this proposal would be exempt from the provisions of the California Environmental Quality Act (CEQA), as specified in Sections 15301 and 15303.

RECOMMENDATION

The Design Review Board should review this project with respect to Zoning Ordinance Sections 16-52.020 (H) (Guiding Principles) and determine that the project is exempt from the provisions of the California Environmental Quality Act (CEQA) as specified in Sections 15301 and 15303. If the Board agrees with staff's conclusions, the application should be continued and direction given to the applicant to redesign the house to lessen its visual impact and make the size and scale of the home more consistent with the surrounding Belveron East neighborhood. If the Board wishes to approve the application, it is recommended that the attached conditions of approval be applied.

ATTACHMENTS

1. Conditions of approval
2. Application and supplemental materials
3. Submitted plans

CONDITIONS OF APPROVAL

9 MERCURY AVENUE

FILE # DR2016132

1. This approval shall be used within three (3) years of the approval date, and shall become null and void unless a building permit has been issued.
2. Construction shall conform with the application dated by the Town of Tiburon on October 5, 2016, or as amended by these conditions of approval. Any modifications to the plans of November 1, 2016 must be reviewed and approved by the Design Review Board.
3. Project elements shown on construction drawings submitted to the Building Division for plan check shall be essentially identical to those project elements shown on drawings approved by the Design Review Board. The permit holder is responsible for clearly identifying on construction drawings any and all changes to project elements. Such changes must be clearly highlighted (with a "bubble" or "cloud") on the construction drawings. A list describing in detail all such changes shall be submitted and attached to the construction drawings, with a signature block to be signed by the Planning Division Staff member indicating whether these changes have been reviewed and are approved, or will require additional Design Review approval. All such changes that have not been explicitly approved by the Town are not "deemed approved" if not highlighted and listed on construction drawings. Construction of any such unapproved project elements is in violation of permit approvals and shall be subject to Stop Work Orders and removal.
4. The applicant must meet all requirements of other agencies prior to the issuance of a building permit for this project.
5. All exterior lighting fixtures other than those approved by the Design Review Board must be down-light-type fixtures.
6. All skylights shall be bronzed or tinted in a non-reflective manner (minimum 25%) and no lights shall be placed in the wells.
7. If this approval is challenged by a third party, the property owner/applicant will be responsible for defending against this challenge. The property owner/applicant agrees to defend, indemnify and hold the Town of Tiburon harmless from any costs, claims or liabilities arising from the approval, including, without limitations, any award of attorney's fees that might result from the third party challenge.
8. A construction sign shall be posted on the site during construction of the project, in a location plainly visible to the public. The sign shall be 24" x 24" in size and shall be made of durable, weather-resistant materials intended to survive the life of the construction period. The sign shall contain the following information: job street address; work hours allowed per Chapter 13 of the Tiburon Municipal Code; builder (company name, city,

state, ZIP code); project manager (name and phone number); and emergency contact (name and phone number reachable at all times). The sign shall be posted at the commencement of work and shall remain posted until the contractor has vacated the site

9. A copy of the Planning Division's "Notice of Action" including the attached "Conditions of Approval" for this project shall be copied onto a plan sheet at the beginning of the plan set(s) submitted for building permits.
10. Prior to issuing a grading or building permit the applicant shall implement measures for site design, source control, run-off reduction and stormwater treatment as found in the Bay Area Stormwater Management Agency Association (BASMAA) Post-Construction Manual available at the Planning Division or online at the Marin County Stormwater Pollution Prevention Program (MCSTOPPP) website at www.mcstoppp.org.
11. All requirements of the Town Engineer and the Tiburon Public Works Department shall be met. An Encroachment Permit from the Department of Public Works is required for any work within the Town's road right-of-way, including, but not limited to, utility trenching, installation of new utility connections, and modifications to the driveway apron. The plans shall clearly identify all proposed work in the right of way and an Encroachment Permit shall be obtained prior to conducting such work. If no work is proposed within the public right-of-way this comment may be disregarded.
12. The final landscape and irrigation plans must comply with the current water efficient landscape requirements of MMWD.
13. The project shall comply with the requirements of the California Fire Code and the Tiburon Fire Protection District, including, but not limited to, the following:
 - a. The structure shall have installed throughout an automatic fire sprinkler system. The system design, installation and final testing shall be approved by the District Fire Prevention Officer. CFC 903.2
 - b. Access shall extend to within 150 feet of all portions of the facility and all portions of the exterior walls of the first story of the building as measured by an approved route around the exterior of the building or facility. A means of egress/access shall be provided from each level of the home to exterior stairs. CFC 503.1.1
 - c. Approved smoke and carbon monoxide alarms shall be installed to provide protection to all sleeping areas. CFC 907.2.10
 - d. The vegetation on this parcel shall comply with the requirements of TFPD. CFC 304.1.2
14. The project shall comply with all requirements of the Richardson Bay Sanitary District.

BRIEF DESCRIPTION OF PROPOSED PROJECT (attach separate sheet if needed):

MAINTAIN EXISTING STRUCTURE w/ NEW TWO STORY
ADDITION @ REAR, AND NEW TWO CAR GARAGE
@ FRONT, NEW LANDSCAPE ALL AROUND.

PROJECT DESIGNED AS LOW ENERGY / PASSIVE HOUSE
STANDARDS

I, the undersigned owner (or authorized agent) of the property herein described, hereby make application for approval of the plans submitted and made a part of this application in accordance with the provisions of the Town Municipal Code, and I hereby certify that the information given is true and correct to the best of my knowledge and belief.

I understand that the requested approval is for my benefit (or that of my principal). Therefore, if the Town grants the approval, with or without conditions, and that action is challenged by a third party, I will be responsible for defending against this challenge, with the defense counsel subject to the Town's approval. I therefore agree to accept this responsibility for defense at the request of the Town and also agree to defend, indemnify and hold the Town harmless from any costs, claims or liabilities arising from the approval, including, without limitation, any award of attorney's fees that might result from the third party challenge.

The property involving this permit request may be subject to deed restrictions called Covenants, Conditions and Restrictions (CC&Rs), which may restrict the property's use and development. These deed restrictions are private agreements and are NOT enforced by the Town of Tiburon. Consequently, development standards specified in such restrictions are NOT considered by the Town when granting permits.

You are advised to determine if the property is subject to deed restrictions and, if so, contact the appropriate homeowners association and adjacent neighbors about your project prior to proceeding with construction. Following this procedure will minimize the potential for disagreement among neighbors and possible litigation.

Signature:*

Date:

**If other than owner, must have an authorization letter from the owner or evidence of de facto control of the property or premises for purposes of filing this application*

NOTICE TO APPLICANTS

Pursuant to California Government Code Section 65945, applicants may request to receive notice from the Town of Tiburon of any general (non-parcel-specific), proposals to adopt or amend the General Plan, Zoning Ordinance, Specific Plans, or an ordinance affecting building or grading permits.

If you wish to receive such notice, then you may make a written request to the Director of Community Development to be included on a mailing list for such purposes, and must specify which types of proposals you wish to receive notice upon. The written request must also specify the length of time you wish to receive such notices (s), and you must provide to the Town a supply of stamped, self-addressed envelopes to facilitate notification. Applicants shall be responsible for maintaining the supply of such envelopes to the Town for the duration of the time period requested for receiving such notices.

The notice will also provide the status of the proposal and the date of any public hearings thereon which have been set. The Town will determine whether a proposal is reasonably related to your pending application, and send the notice on that basis. Such notice shall be updated at least every six weeks unless there is no change to the contents of the notice that would reasonably affect your application. Requests should be mailed to:
