SPECIAL BULLETIN

Sewage Spill in Sausalito

As you may already know, a sewage spill occurred yesterday from a plant in Sausalito. The initial spill was reported at 36,000 gallons and the plant expected to have the spill contained by noon today.

It now appears that the spill will not be contained until later today. We have been informed by the County Department of Environmental Health and Emergency Operations Center that pollution from the spill is not expected to come toward Richardson Bay or affect the shorelines of Tiburon or Belvedere. If we receive any information to the contrary, we will send out another bulletin at that time.

Thank you.
