

DANIEL AMIR

Age: 47

Occupation: Business Executive/ Educator

My wife and I have lived in Tiburon for 11 years, and we have raised our three girls in this wonderful community. Our kids have been part of the Reed Union School District since kindergarten. I am deeply honored to have served on the Tiburon planning commission for the past two years and on the Tiburon Heritage and Arts commission prior to that for five years. I have also been a devoted community volunteer from coaching in the Tiburon Peninsula Soccer club, helping in the Reed Foundation and serving as President of the Belveron East Neighborhood Association. In these roles, I have reached out to the community on topics of increasing neighborhood safety, preserving open space, enhancing art in Tiburon and supporting our kids.

After seven years of serving the Town of Tiburon, I hope to bring my excitement to community service as a councilmember and work hard to preserve the many things that make Tiburon a wonderful place. I plan to focus on reviving downtown, preserving the town's natural beauty, increasing school safety and strengthening the village community.

I am committed to hearing your ideas and collaborating with residents to push forward progress in our community. I would be honored to have your vote.
