

BRIAN MCCULLOUGH
INVESTOR

I'm a 16 year resident of Tiburon. This is my third run for a position on the Tiburon Town Council - Third Time's a Charm? I was raised in Marin County, and a graduate of Redwood High School. Previously, I had run as a pro law enforcement candidate. This run, I have an even bigger concern, given the rising crime rate in Tiburon. I also strongly believe there are some serious issues within the Town of Tiburon and my goal is to address these issues in depth.

Through my years of life experience, learning from a bottoms-up approach, in the construction field - having built many homes, running successful companies and working in the investment banking sector, I bring expertise from many diverse fields and look to create a balance and provide fresh insight to the current town council. I also bring my understanding of macro economics, where I'm not only concerned about the future of the Town of Tiburon, but the State of California and our country.

During COVID-19 lockdown, a bright-spot for me was meeting a diverse group of Tiburon residents at the dog park- establishing community and unity - through the love of Dogs.
