

I have been a Tiburon resident for over 7 years, I am a proud husband and dad, and I love our community. Service to this community is a core value. I have been an active member of the Parks, Open Space and Trails Commission, Safe Routes to School, RUSD Safety and Facility Committees and a host of other organizations as a “can do” leader and volunteer, focusing on quality of life, safety, infrastructure, the environment, and youth sports. Professionally, I am an advisor for clean energy companies, and have brought my expertise to several key community projects.

Two of these projects, the Parks Plan and Tiburon Traffic Study, will be completed within a year. Keeping momentum on these efforts and others including safety, transportation, recreation, Town accountability, and community engagement requires a Town Council member who has historically demonstrated a willingness to roll up their sleeves and focus on positive outcomes for our community. I believe I am that candidate.

In summary, running for Town Council and dedicating the time and engagement needed for this position are a natural progression of my commitment to Tiburon. It is important for the community to elect someone to Town Council that you can trust will deliver. I ask for your support. Hornbrook4Tiburon.com
