

Occupation: Incumbent Tiburon Town Councilmember; Athletic Director, St. Hillary CYO;
Sales Executive at Adobe

Our family was drawn to Tiburon's beautiful Open Space, excellent schools and safe community. After 12 years and 3 children graduating from the Reed Union School District now at Redwood High School, I am ready to give back even more to my community.

I've spent six years (two as Chair) of Tiburon's Parks, Open Space and Trails Commission and now on Tiburon Town Council working hard to preserve Tiburon's Open Space and improve our Parks. During COVID-19, I ensured our residents could use our Parks and Open Spaces, as they became critical to improve our quality of life. Most recently, I worked to create the Tiburon Parks Master Plan, revitalize Greenwood Beach, ensure toxic chemicals are not sprayed in our parks and picnic areas, and supported the acquisition of more open space.

I've started the work I promised to preserve Tiburon's Open Space and Improve our Parks, support improving safety, preserving Tiburon's unique character, reducing traffic, keeping Tiburon fiscally sound, protecting the environment, combating climate change, ensuring emergency preparedness, revitalizing downtown and bringing back family friendly events, including Friday Nights on Main.

I respectfully ask for your vote
