

Andrew Thompson

Age: 62

Many of you already know me from my 12 years of dedicated service on the Town Council and as Mayor. As a native who also raised my kids here, I now have time to dedicate to our Town once again.

My focus remains on building a strong community. With my extensive experience and institutional knowledge, I have the skills to address Tiburon's current challenges: Supporting new families, managing traffic, the State housing mandates, climate change and practicing smart fiscal management.

I will reestablish my successful Homeowner Association Town Council Summits, proactively addressing issues. Continue my work on parks and trails and review the Town's view ordinance to promote cooperation.

While this may seem ambitious, my proven track record demonstrates my ability to achieve these goals efficiently and cost-effectively.

Some examples of my accomplishments for Tiburon:

- Co-Chair No Tax New Town Hall & Police buildings
- Preserved hundreds of acres of open space.
- Negotiated many of the missing links to the Ridge trail.
- Created the solution for the BTCCC permanent location.

I also bring significant experience at the county and state level giving me a greater network and political influence for Tiburon.

Thank you for your trust in me once again.
